Field	Type	Comment
Email*	Single line	Shall be an existing email
Reset password	Link	When selected the Application sends password reset link to the registered user's email address
Application displays the below fields after selecting password reset link through the email message.		
New password*	Single line	Shall contain (Numbers, letters and at least one capital letter) Minimum Eight characters Text masked with asterisks '**
Confirm new password*	Single line	Shall be identical to text inserted in password filed. Text masked with asterisks '**

7.1.3 Update password

- Application shall allow authorized users to update application password in case of first login .
- Application shall allow authorized users to update application password through [My Profile](#)
- Application Shall validate updated password & shows below message in case of user inserted old password used before .
 - **"MES2 : please insert new password & try again "**

7.1.3.1 Update Password form

Field EN	Type	Comment
Old password*	Single line	Shall match the current password
New password	Single line	Shall contain (Numbers, letters and at least one capital letter) Minimum Eight characters Text masked with asterisks "**
Confirm new password	Single line	Shall be identical to text inserted in password filed. Text masked with asterisks "**

7.1.4 Logout

- Application shall allow authorized users to use logout from application through [My Profile](#) .

7.2 My Profile

- Application shall allow logged in user to view the account information
- Application shall allow logged in user to logout from application using [Logout](#) feature
- Application shall allow logged in user to update password [Update password](#) feature

7.2.1 My Profile forms " Admin - Operator "

Field	Type	Comment
First Name EN	Read only	
User Name	Read only	
Email	Read only	
Mobile	Read only	
Role	Read only	
Update Password	Link	When selected it routes user to Update Password form
Logout	Link	When selected it routes user to application home page

7.2.2 My Profile forms " Shipping line - Canater customer "Importer /Exporter "

Field	Type	Comment
Company Name EN	Read only	
Company Name AR	Read only	
User Name	Read only	
Email	Read only	
Country	Read only	
City	Read only	
Address Details	Read only	
Website Link	Read only	
Contact Person	Read only	
Contact Telephone	Read only	
Product List	Link	-When Selected application should open new page shows all products list which shipping line could ship it - available only in case Profile = Shipping line user
Update Information	Link	When selected it routes user to update all highlighted fields with yellow
Update Password	Link	When selected it routes user to Update Password form
Logout	Link	When selected it routes user to application home page

7.3 Register with us

7.3.1 Customer Registration " importer /Exporter "
